

Md Shaidul Islam

Android App Developer Java | Kotlin

ABOUT ME

I am a passionate and dedicated **Android App Developer** with hands-on experience in **Java, Kotlin & Firebase**. I specialize in developing user-friendly and functional mobile applications. My skills include REST API integration, backend communication using PHP, and managing CMS platforms like WordPress. I have worked on several real-life projects such as coaching management systems, and subscription-based e-commerce platforms. I enjoy solving complex problems, learning new technologies, and working both independently and within a team. I am always eager to contribute to innovative projects and grow as a professional in the tech industry.

A highly motivated and detail-oriented Android App Developer with solid experience in Java and Kotlin. Passionate about building user-friendly and efficient mobile applications. Skilled in Firebase integration, API handling, and modern Android UI/UX design. Eager to contribute to real-world projects and grow as a professional developer in a challenging environment.
